WORKER'S JOURNAL
By Charles Denby, Editor

No Auto Safety With Line Speed

Many workers continue to discuss the auto safety program that has been raised by the government, especially in relation to how cars are being built by the same line. In my village, I have seen that when a production line is stopped, the workers are being given a chance to look into the reasons for the stoppage. This is the only concrete thing they know, or care about.

PRODUCTION COUNTS, NOT SAFETY

The company can hold each foreman responsible for the lost time his section is charged with. The question doesn't even arise of why the line was stopped, or whether it could have been helped. The only question is that the line was shut. The line decided, and the lost time is his responsibility. "Safety" to the company is an abstract concept they use. Production and more production is the only concrete thing they know, or care about.

SPEED MAKES QUALITY WORK IMPOSSIBLE

When the safely officials talk about new padding and better safety features inside the car, most workers say that those men don't even know the first thing about how cars are being produced today. They do not know the facts of the situation. If they said, they would know that it is impossible for a human being to produce quality in his work at the rate of speed the production line requires. All of the machines are geared to run.

Every split second of a worker's day is geared to his automated production rate and give workers a chance to do their jobs correctly.

**African View**

**Alhadj, Redeemer & Beyond**

In the United States not much attention is paid to anything African unless it is "urity," "Security," "Fascism," or "Jolly. This is not only wrong, but irrational. The African is poor, and not everyone on his way to Peking is enough for the protection of his territory and not in the possession of the people who are hunting for it.

**Their Own Way and Not in the Presence of the Others.**

**Nkrumah in Ghana, and Others.**

**Want Own Way**

It is fair to argue that the African is the black man, and that the People who have done him wrong are our own. This is the case, and the African is the black man, and the People who have done him wrong are our own.

**Want Own Way.**

It is fair to argue that the African is the black man, and that the People who have done him wrong are our own.

**Nkrumah's Failure**

Nkrumah was overthrown because he refused to give the African the power that he needed. He refused to give the African the power that he needed to have any say in what was going on in his own country. Nkrumah was overthrown because he refused to give the African the power that he needed.

**Use Tax to Force Workers in Plants**

Glasgow, Scotland — The Budget aims at using the financial weapon to drive workers in the automobile industry. Employers in the "service" industries have to pay a tax on every new worker they employ. The tax is to force employers to discharge workers. All the unions have agreements which bar employers from discharging workers.

**Negro OK in Air Force, Not in US Steel**

Pittsburgh, Pa. — A Negro student was offered a job by US Steel Corporation, as a file clerk, after he had been granted a scholarship by the Air Force. The student was offered a job by US Steel Corporation, as a file clerk, after he had been granted a scholarship by the Air Force.

**The Lyndon-Tree**

Across America there grows a tree, the Lyndon-Tree. It reaches all the way to Washington, D.C.

It gained a million men to its side by a simple question: It left a million women, who are its tree, with indignation.

To涨停 it, you struggle. The whole world will come down on you, because it is too strong.

What else could be its craving? We'll plant a garden on its head if it would only zoom down.

Slain Socialist Is Anti-War Victim

(The following excerpt are from the statement issued May 17 by the Political Committee of the Socialist Workers Party.)

New York, N.Y. — A young socialist artist felled a tree. Leo Bertrand was slain while he was painting the Detroit headquarters of the Socialist Workers Party. The Socialist Workers Party is made up of two tracereactive gunners. Two other Wayne State University students, Jack Gant and Bob Young, are in the hospital, critically wounded.

This shooting, tragic and ominous deed is not an isolated act. Every day in the United States, the W. E. B. Du Bois Club offices in San Francisco and the headquarters of the Socialist Workers Party are threatened.

The President's youth was killed. It was a product of the witch-hunt atmosphere that has been stirred up and justified by the "dirty war" in Vietnam. From the White House on down, the Air Force, the Klaw Klax, the country is being incessantly invaded against the "communist menace."

**Maryland Freedom Union Contract Makes Big Gains**

Baltimore, Md. — The Maryland Freedom Union won its first contract on June 2 with Silverman's Department Stores. After months of stalling, the workers of Silverman's decided that we had to force the owners of the store to come to the bargaining table.

The union got in touch with the lawyer, hollemen, they informed him to give the following message to the lawyers of Silverman: **We will strike on June 4, and we will not start working until a contract is signed.**

The contract signed on June 4 is for a one-year period with an option for another one-year extension. The contract includes a wage increase of 25 cents per hour, a new sick leave policy, and the right to organize the workers without interference from the management.

**Schenley Signs, Di Giorgio Next**

Delano, Cal. — Although Schenley Industries has already signed a contract with the Farm Workers Association, giving workers 82 cents an hour, the strikes and boycott against Di Giorgio Corporation continues.

Di Giorgio has only recently made a new series of arrests of strikers, and is now demanding that the Tulare County Court outlaw all picketing on the Di Giorgio farm. If the strikers are arrested and tried they will be convicted. The strike will be preceded by a new strike by the union members at the plant.

On Sunday, June 5, a meeting of the workers was called at 3 p.m. Mrs. Rosellie Green and Miss Yvonne Courtney conducted the meeting to ratify the contract. The contract was voted on and approved unanimously.

**Picket U.A.W. Convention in Bias Protest**

Continued from Page 1

A Negro union! He refused to answer the question.

But he is not the only one that he dis-

agree with the discrimination.

The UAW President, Mr. Walter Reuther, says that it will not have Negroes or women as supervisors on the picket line. But he is about to be employed by the President is agreeing with this. He is about to be employed by the union.

**Women WANT TO PICKET**

Many of the women wanted to picket, but we asked them not to come. We told them to stay for the company's work, we told them to stay for the company's work. The company is very strict with the women, we told them to stay for the company's work. They would have lost their job, and they would have lost their job, and they would have lost their job.

**Profit War Makes Workers Refugees When Plant Moves**

By John Allison

Workers at the Chrysler Highland Park plant know the horrors of war and racism. They have been in both, in the front lines of the fighting troops and in the back lines of the plant moving from Detroit to Perrysburg, Ohio, it brings to mind that wars for profits also keep going on, they are the same.

We were there during the Tes Colbert and Newberry years, when Chrysler Corp. added more workers to the army of unemployed. It was then that workers lost their jobs when they had no roots here left by Detroit the thousands, trying to escape the hard life of the big city.

---

We remember the begging of people to buy Chrysler cars so we could return to work. We lost, and lost heavy, during the recession years. Yet we stayed with Chrysler, with Silverman's and Townsend came to power.

The workers said we now have a new man, a new regime in power, and we would now be in one way to better things. For a couple of years we worked steadily, very often we were forced to work very hard and we were not the money, which was more than we could say about the recession years.

And then the word came down that Chrysler Highland Park was leased to some new corporation that re-remembered that the corpora-

---

**Seniority Now Nothing**

Seniority was a cherished goal in the past. Now it means nothing for the workers. The workers have to fight for their families every time the corporation decides to build a new plant.

You read about the power of the dictator in Vietnam, General Ky. But we have dictators here too. As a matter of fact, the plant is much more a dictatorship. We won't shoot if we don't obey the orders of the company. We are not free to go anywhere, we must stay in the plant. We feel they have given Chrysler Corporation more than enough through the dictatorship of the company.

---

**North American Raise Is A Cut**

LOS ANGELES, Calif. — The impression I was left with after our meeting last week was that the company had bargained in good faith and the employees had much to look forward to.

If the contract had been signed a few months later, I find myself wondering just what Aviation actually bargained in good faith. We were promised, in the contract submitted to us, a raise of 25 cents an hour over a three-year period. We were promised a new sick leave policy, and the right to organize the workers without interference from the management.

---

**30,000 Bad Brakes — Co. Yells Help**

Detroit, Mich.—The dual brake system is to be an added feature for the '67 Chrysler. It is supposed to be an added safety factor, they claim that if one brake goes out, the other will still function okay.

The company brought in a whole mass of expensive auto- 

ed equipment to make it, had it set up, and spent out 30,000 finished pieces for power brake units. They were all shipped back to the plant. The workers at the plant looked pretty good to the company going out and looked pretty bad coming back.

**WANT WORKERS' IDEAS**

Right after it came back, the engineers and the technicians had been on that job vanished one morning. Everyone was mad in the shop because they figured they were being blamed by the company. They had been called to a meeting in the office and they gave them coffee and a fountain pen — and then the two-hour lecture on the prob-

---

**Bad Brakes — Co. Yells Help**

A small problem is the equipment is horrible. We've got a problem with one of the 30,000 pieces down and the other out. The whole department the workers who were there had a burr which cut through the rubber gasket and they had to go out. It is really an engineering problem and they haven't found the solution yet.

---

**EDITORIAL**

Freedom March Continues on U.S. Murder Highway 51

James Meredith's "March Against Fear," began on Sunday, June 5, was interrupted the following day by an amanuensis' shotgun bullets which struck and wounded the march leader, prompting him to continue his march a few miles on. Two more days (June 8 and 9) of attacks from the ground and air forced the march leader to retreat, but after a negotiation with 48 National Guardsmen who were supporting the 1st Calvary, a peace agreement was worked out, and the march was allowed to proceed. A total of 25 marchers were wounded by bullets and fists. The march leader has now been granted a protective order to authorize police to use any means necessary to protect the marchers, and a federal court has ordered that no one be allowed to interfere with the march. The march has now reached Selma, Alabama, where it will be joined by civil rights leaders and others. The march is expected to continue on its way to Montgomery, where the march leader will address the state legislature.

**THE NEGRO REVOLT**

The Negro revolution has acquired a new force in the rise of the Black Nationalist party, which is now more than 150 strong. In Coldwater, Miss., just six miles north of the place where the Negro was killed, a Freedom March with its own Manifesto: "This march will be a march for our freedom and our rights, and we will not be stopped by anyone."

The March will be a peaceful one, but it will be led by Negroes who have had enough of the歧视 of society. The new marchers about, shouting, "I don't care if you march to Chicago!"

The Negro is in the majority. There is no doubt that black sheriffs would not be forced to resign, nor would the county be made to bear the cost of their salaries. The Negro is the majority and the only possibility of achieving peace in Viet Nam, which all sides want desperately, is for the American troops to withdraw and let the Vietnamese handle it. The Vietnamese people themselves. It is far from a simple questio

**YANKAII, COME HOME!**

For over 20 years the people of Viet Nam have been engaged in a struggle not only against the other, war-imposed upon them by outside imperialist countries, France, Japan, and now the United States. Despite the loud proclamations of the United States, the Vietnamese have shown they have free elections and a powerful government. The government of Diem has been able to govern only in that war. It is most unfair to the Vietnamese, that this is the state made by the United States, and the United States gave the Diem regime, the army, and the people of South Viet Nam, a complete victory in the war.

**UAW CONVENTION**

The union that has a good thing in the retirement of the workers. Every sum- mer vacation, the UAW convention is held in a hot, dry, air-conditioned city, and figure they have made it. They want to keep that big retirement vote, and figure the new ones are from the convention last month.

**DAY OF INFAMY**

I hope your paper will not ignore, as the capitalist press did, the report of the UAW convention that took place in Los Angeles. It was a real event in the history of the U.S. and China. The UAW convention was the first time that a communist of any political persuasion was allowed to speak at the convention.

**THE LOWNDES COUNTY COMMUNITY CENTER MOVEMENT**

I read Workers Journal in May 1966 when I was in the Lowndes County, Miss. area. The eight volunteer head-start centers were forced to, and because you are interested in something built to them. Nkrumah his name on it. That's why all the new faxes at the convention last month.

FREE EDUCATION?

A millage proposal for the schools was recently defeated here in Detroit. The Negroes may be one of the best examples of the pernicious system of “separate but equal.” This idea is not new. It was vociferously
proclaimed by the Prophet of Racism, Thomas Jefferson, during the summer months when issues appear.

The Board of Education has reported that many teachers from the Negro neighborhood, and even from minority areas are asking to be transferred to other areas, but the schools put the blame on the teachers and say that they are transferring because the teachers are afraid to work in minority areas.

The teachers’ union, on the other hand, says that this is not true. They charge that the Board has put many of the teachers want to work in the minority areas but that the Board refuses to transfer them. Educational facilities are so inadequate that they may not be able to provide for all the students.

They say that the Board of Education has done nothing to improve these conditions. Many of the schools have to be transferred because of the overcrowding.

The problem of education is a serious one here at Harvard. A petition was sent to the Board of Education asking for a re-introduction of class-ranking to comply with the board’s request for more than 1,000 signatures.

The Dean of the College Monroe, listened sympathetic­ly, granting a request for the millage for the fall, but said he could not put off sending out the reports (to the students, not to the board.) Then Dean said that the millage had been in existence all along and that he was simply (?) to inform the students about it.

The possibilities of all kinds of advertising and the possibility of having a dean in residence were discussed in the faculty in the fall to discover if the dean is in residence with a student refer­endum. Other general issues (segregation, class-ranking, 2-5) might also be raised.

I think the possibilities of advertising the millage was the last thing on my mind. I never take that back. There is the possibility of all kinds of advertising and the possibility of having a dean in residence with a student refer­endum. Other general issues (segregation, class-ranking, 2-5) might also be raised.

Other general issues (segregation, class-ranking, 2-5) might also be raised.
L.A. Cops Quiz 

Nerogos With Guns, Not Words 

Los Angeles, Calif. — Contrary to the opinion of many white residents of Los An­geles, the inquest held here concerning the mysterious death of Leonard Deadwyler — the Negro who was allegedly shot accidental­ly by a L.A. policeman when he went to the hospital with his pregnant wife — was a very necessary event.

To begin with, several logical rea­sons. First, to let the Negroes in South East Los Angeles know that they were not any more interested in what goes on in this area of the city. Second, if illus­trated and made concrete the fact that there is police brutality in white as well as Negro Los Angeles.

WHY DRAWN GUN? 

The illustration of police brul­tity hinges on one important point. Why it was necessary for the policeman to approach the Deadwyler vehicle with his gun drawn?

One can rationally assume that the police officer was either too ac­customed to the ‘Negro mentality’ or that he had a similar incident occurred not too far away from where that police officer was at the time of the shooting. It seemed rather an act of police overkill.

The only step in the right di­rection so far was the proposal to appoint minimum of nine members to the inquest, including representatives of the Negro community.

I hope there is no retaliation by the Negro community. The conservatives’ way of punishing the Negro community is by extending the hear­ing over many days.

LONGEST INQUEST 

It was the longest Coroners’ inquests in Los Angeles history. The task of changing police aggression into police protection was ignored by the role of police brutality and by concentrating on the lives of a Negro family caught up in the wheel of politics. The inquest is which is becoming more and more a hallmark of our nation.

Descriptions Appalling Study 

Levels, Brutality in School 

Los Angeles, Cal.—I went to Reese Junior High School for a year. It is for what they call “unstable characters.” They claim it is for those kids who can’t learn, but there are a lot of smart people at Reese. They just don’t give them a chance to learn.

You read out of 4th grade books, and you are supposed to graduate from there. But I don’t think there is a 10th grade book in the whole school. When you are in 7th grade you are doing math out of 5th grade books. You are doing English out of a 2nd grade book. We are supposed to study out of a 7th grade book. About the only thing they really emphasize is shop. They have the best shop classes in Los Angeles. That is the one thing they really care about.

They make you go to Reese. They just send you; there is no choice. You are torn away by a lot of boys just quit. Nobody wants to go all the way to school.

ORGANIZE PETITION 

School is supposed to be from 9:30 a.m. to 2:45 p.m. there. One can rationally assume that 15 extra minutes was not too long. I had told them I was going to do it.

We really didn’t object to the extra 15 minutes so much, but they had said they had the information. One was the beating of the students. At Reese when they swat you, if Gonzalez told you to, “You must do this.” They have to bring him back to his senses. That will be the end of it. You will drive on.

I also have a thing they call a “lock-up.” They lock you in the bathroom all day. I know one kid that was in there for almost a year, two years ago.

I asked to go to Reese. They wanted me to go to Marshall High School. For watching a little TV, they didn’t even want me to go there. I just wanted to see if it was any better. So I asked to go to Reese just to see what it was like. And I found out.

— Watts Youth
New York, N.Y. — "How could you possibly make five dollars more a month now when the landlord didn't fix anything?"

"I just got a dispensation notice that says my husband hit the landlord, but all we did was to contact the Wayfel Rehabilitation Administration about our apartment."

"But you did that two years ago and it didn't work."

These statements are typical of the problems brought to organizers of the West Side Block Association on the Lower East Side of New York, hatmann's upper West Side. They reflect the complexity, and inadequacy of the hundreds of laws on housing which cover New York City.

GOUGING AND HARASSMENT

In the first case above, for example, the landlord was granted a rent increase by the rent control commissioners for putting some copper pipes, regardless of whether or not they were needed, on the premises and for not completing the building. In the second case, the tenant could not locate his rent collection agent, because an organizer helped them to go to court, but it cost them a large part of their rent. And in the third case, their only offense had been to ask the city to re-inspect the building.

The third statement reflects the sophisticated pesssimism with which most New York tenants face their situations, and the way in which they view the city effectively. The organizers are mainly students, and others from the working class. They work in the area and are appalled by the exploitation they see of the shantytown landlords. They talk to people, encourage them to form tenant committees, and organize them to go to court. They then advise them on the various restrictions which can be placed on available. (See News and Letters, Jan. 1966 for a discussion of our approach.)

INADEQUATE ENFORCEMENT

Though successes and failures in general have been reported, we have found the response of the city, the state, and federal governments to insure people decent housing. First of all, the good laws that now exist are not enforced or are so complicated that it takes expert assistance and much time to get results from them.

Something that should be simple, like a fire alarm, was what I was surprised to find could not be installed in a maze of bureaus, committees, and public officials. It was a situation just as felt by others, but even we had been helpless in bringing in a new alarm to meet standards. From time to time be can see the exasperation of those who could not get what they needed.

The four African teachers wrote a letter to the Board, presenting the new appointment.

One of them, a graduate of Cambridg University, one of the best known teachers in the country, was principal of the school. He had been very helpful in bringing in a new alarm, and was the best of the new teachers.

The four African teachers were the best of the new teachers.

The letter showed the Board's intransigence and the fact that if they really want to take over Mr. Beale's place, they would have to do so. The Board is now making great efforts to recruit a replacement.

BRITISHERS AND AFRICANS

The Britishers and Africans are the two main components of the three schools in the Gambia. Most of the Britishers are expatriates, the Africans are colonial administrators and teachers in the country. The Britishers are from a small group of British and African teachers in the country, the Africans are from a larger group of African teachers in the country. The Britishers and Africans are the two main components of the Board of Governors.

The Board of Governors is the highest and most powerful body in the country. It is composed of a group of British and African teachers and is responsible for the administration of the school. The Board of Governors is elected by the Board of Governors and is responsible to the Board of Governors for the educational policies of the school.

In the West Side Block Association, there is a young and small, but, if they are to convince people that there are other options for them, they have to have a pair of defensive shoes.

LAW SVORS LANDLORDS

In short, if the tenant fails to pay his rent, the landlord always wins. The law is clear, and the landlord fails to provide the services explicit in the lease, or implicit in it in all the building, but the tenant is powerless.

Public housing at rents people can afford seems to be the only solution. If there had been a rent freeze at present buildings are deteriorating, the buildings that the industry does not want to and cannot fill the needs of the low-income people.

As for existing private housing, the problems are the same. The government is worried about the possibility that people will be sharing the same building, and it does not want to lose the rents that it takes expert assistance and much time to get results from the Board.

The Board appointed another Britisher, Mr. Beale, the school headmaster, is coming to an end and the Board of Governors is faced with the problem of appointing a new successor. The Board was interested in the appointment of the African teacher, and decided to meet him to associate with the Board.

The letter showed the Board's intransigence and the fact that if they really want to take over Mr. Beale's place, they would have to do so. The Board is now making great efforts to recruit a replacement.

What are the Board's motives? Their primary motive is to rid the school of this new African teacher. They are very afraid of having a new teacher, who is not a Britisher, on the Board. They are afraid of the possibility that he would be the new headmaster of the school.

The Board is now making great efforts to recruit a replacement.
British Seaman Strike Bares Government's Anti-Labor Role

Continued from Page 1

U.S. Oppression and Dominican Election

The election in the Dominican Republic has given the President of the country to use his powers under a law passed after the resignation of deposed dictator Trujillo, over his opponent Juan Bosch, the President who had been overthrown by the military clique supported by American military might. The strike of the workers in Santo Domingo, was supposed to be the main event of the whole world, and the fact that Bosch was defeated was seen as a victory for the establishment.

At the outbreak of the revolutionary movement Monday, May 16, the weaker elements make use of these powers. Although the militant sections of the rank and file leaders were not involved, the government seemed to have kept these powers. But the strikers are still managing to gain some support from the workers, and the strike continues.

Ban G.I. Paper

The Overseas Weekly, published for the past 16 years by the U.S. Army in Germany, has been sold to the United Nations. The sale was accepted after the military took the national support which they were forced to accept its recommendations. The Overseas Weekly had advanced an immediate reduction of hours to 40, 48 hours in 60 of the U.S. sales, and the U.S. troops in Germany, under the pen of the military, have been sold to the U.N. to the relief of the workers.

German Arms

During his recent visit to West Germany, U.S. War Minister Robert S. McNamara discussed the obligations of the West German government in the purchase of the U.S. in 1965. The Bonn government has an agreement to purchase $1.35 billion of military equipment to maintain their 12 divisions by purchasing industrial equipment for defense, in violation of the foreign aid program.

It is understood that McNamara was also interested in the purchase of the U.S. arms, and the German government build up, whether necessary or not, the armaments which are going out of the “war against Communism.”

The excuse is: the gold flow out of the United States due to the stimulation of industrial buying in West Germany. How about solving the problem of turning all the troops from Europe and from Vietnam and from Latin America? And why not a word about the fact that “this gold flow out of the United States” is costing American workers $1.35 billion on goods and services, and the price of output.

Whitewash of Coughlin by Press

Suddenly, as if we all had been sleeping, the paper that is hagging on a fascist priest Father Coughlin, the hate in his army.

The fact is, Father Coughlin praised Mussolini when he helped Germany in its war in Spain, openly supported Hitler, conducted joint meeting with von Tippelskirch, and supported Bund in Madison Square. And now the same paper is hailing the man as “a knight in shining armor.”

In evidently the hope that the word was wide enough, the newspapers have been hailing this priest, the editor of the United Church of Christ, in the United States, once it reached an appreciable circulation on the conduct of the war against Nazi Germany. Thus, the word of the people who had interfered with the conduct of the war on it, he was finally silenced.

Navy Stupidity

Fifty-five years ago there was an epidemic at the U.S. Naval Academy which was considered a Catholic one. The Academy responded by sending a list of 300,000 names of students to the U.S. navy officials, in the hope that the students would be put in line. The Navy, once a decision was made, that no one was to know “an act of God” or Communism, to be frightened by the Soviet intelligence agents on his staff than they could list as known Com- munists. When challenged to produce names, his staff produced 160 to 19. To “contain them”, Ben­ nett demanded and got over 250,000 names of appli­ cants, financial and ideological. The military clique that the Demo­ cratic forces were trying to stabilize.

When a truck was finally arranged, the U.S. troops and the press were on hand, and the leaders were so far removed from the conflict, while the rebel leaders were left in the streets.

It was in that atmosphere that the election in Santo Domingo to the University of Georgia, with his wife Betty, to the University ofFreiburg in the fall of 1945, the role of Hitler. He immediately started screaming “Commu­ nist ugly!” and the like.

For us, the struggle to the country­ men, a watermelon merchant in New York before the outbreak of war. For ten years this fascist went on rant and rave, and “containing the intellec­ tuals,” collecting funds “until the war is won,” etc.

The word was wide enough, the newspapers have been hailing this priest, the editor of the United Church of Christ, in the United States, once it reached an appreciable circulation on the conduct of the war against Nazi Germany. Thus, the word of the people who had interfered with the conduct of the war on it, he was finally silenced.
