What amazes me is so many political leaders just in this country is affecting the poor, whites as well as every poll showed that Nixon was going to break-in and the White House. Practically every worker with Nixon. He is a tricky politician, and seems to be surrounded by top racketeers.

"No one could make me believe that he did not know about the Watergate bugging of the Democratic Party offices. What amazed me was that so many political leaders just beginning to think there is a connection between the break-in and the White House. Practically every worker in our community and in the new firm in the whole country is going to win by a landslide. I think it was done because it would enable Nixon to get more money at political power. The more people becomes to drink for power. To me, he is striving to be the first dictator in this country. The Senate and Congress are incapable of stopping him.

"Frightening"

"Nixon's Attorney General Kleinlein told Congress that anyone holding a government job would not have to appear before them to testify if Nixon did not want them to. Exclusive privilege would absolve them. Man, that is frightening. Another thing that frightens me is former Attorney General Mitchell saying he can't wait to appear before them to testify. I am still puzzled why no Democratic leader tried to force this investigation before the election. They went along with Nixon, and waited until after the election."

GOVT. PUSHERS

I was listening to a former drug addict lecturing on drugs at a meeting last year. He stated that there is so much money in the drug racket that no politician or federal official wants to be involved in it. The only hope of controlling it is for the people to organize themselves in their communities and fight to keep it out.

Money from the drug racket even ends up in Washington. The daily papers ran names of some of the leading drug suppliers in Detroit. They interviewed some of them, who stated that he paid over a half million dollars in taxes last year, which the government took with a smile.

Massive workers' strikes in Britain challenge both Tory and Labor parties

By Harry McShane

Glasgow, Scotland—The wage freeze imposed late last fall by the Heath Tory government in Britain to control a disastrous inflationary spiral has produced a continuously growing revolt on the part of the working class which at times reached dimensions nearing a general strike. Since the beginning of the year, selective strikes by transport workers inan important industrial area in Northeast England, although the Labor Party candidate from there is a March election, the Labor Party vote fell from 71 percent in the general election to 35 percent. The Tory vote dropped from 38 percent to 26 percent. The Liberal Party candidate got 20 percent of the vote—the first time in 86 years that a Liberal candidate even ran for the seat. In Lincoln, also in the Northeast, a popular but unofficial Labor candidate defeated the official party representative. At Dundee East, a Scottish Nationalist ran a close second to Labor. Taking these results together, Labor's share of the vote fell from 51 percent to 47 percent, while the Tory vote dropped from 38 percent to 28 percent.

Labor and Tories both lose

In Scotland and elsewhere, the Liberals and the Scottish Nationalists are winning a great deal of prominence because of their criticism of both the Labor and Tory parties. In the East End of London, an industrial area in Northeast England, although the Labor Party candidate from there is a March election, the Labor Party vote fell from 71 percent in the general election to 35 percent. The Tory vote dropped from 38 percent to 26 percent. The Liberal Party candidate got 20 percent of the vote—the first time in 86 years that a Liberal candidate even ran for the seat. In Lincoln, also in the Northeast, a popular but unofficial Labor candidate defeated the official party representative. At Dundee East, a Scottish Nationalist ran a close second to Labor. Taking these results together, Labor's share of the vote fell from 51 percent to 47 percent, while the Tory vote dropped from 38 percent to 28 percent.

Grape boycott resumes

Delano, Calif.—In their continuing effort to break the United Farm Workers Union, California grape growers have signed a "backdoor" sweetheart contract with the Teamsters Union, after the growers three-year contract with the UFW expired. The new contract gives UFW workers a basic wage 10 percent better than the UFW contract. It will also eliminate the hiring hall and return to the old system of labor being supplied to growers by labor contractors, long known for their abusive and racist treatment of workers.

UFW President Cesar Chavez called the new agreement with the Teamsters "a victory for the growers." Chavez charged that the federal government knows about cash payments from lettuce, grape and other growers to Teamsters officials to inflate UFW members into agreeing to work under a Teamsters' contract.

These are just a few ideas, I'm sure that every other worker here has many more. Pass them around! Eagle Electric may be a rich and powerful company, but it would be nothing at all to us without us to run its machines. It's high time that we force Eagle into the 20th century.

-Building #1 Worker
Detroit, Mich.—Three hundred demonstrators took part in the GM Building on April 10, as part of a nation-wide protest against President Nixon's cuts in federal spending for social programs, particularly day care centers.

Women were joined in their picket line by many concerned organizations, including outstanding Right's Organization, UAW Retirees and others. Demonstrators carried signs saying: "Child care not welfare" and "Child care is a basic human right" and "UAW Grand-dads support child care."

The main purpose of the demonstration was to call attention to the facts reported in a recent Senate report, and because women haven’t been paying attention unless the issue directly concerns them, they’ve never been on the march. She said, "American just don’t understand what’s going on and how this can happen in America. In other countries they have child care and old people starving."

Women in factory jobs are creative, seek freedom

In an article by Adrienne Rich in the New York Times, she wrote, "I am not saying women should have been at home sewing, a conclusion that some in the West today would no doubt draw. He was describing experiences of women who contributed to the lives of women and children — better himself, all for the sake of education. It is very hard for me to think of men in the families. It is not only society, but also individualism, that women have to work at.

I am aware that many women had not been talking about motherhood. She, at least, realizes that it is obviously the only way to get more hours of work for the women and children. She has the same thought, to a much more function, but some kind of support, shepect.

Women and children — better together, all for the sake of education. It is very hard for me to think of men in the families. It is not only society, but also individualism, that women have to work at.

I am aware that many women had not been talking about motherhood. She, at least, realizes that it is obviously the only way to get more hours of work for the women and children. She has the same thought, to a much more function, but some kind of support, shepect.

San Francisco, Calif.—For several years there have been rumors to the effect that the International Longshoremen’s Union, to take over the longshore local here by having it receivership. Recently, in what may prove to be the first step in that direction, the International Office brought back one of its long-time placards from retirement and put him on the payroll to “investigate” the local.

The longshore local is regarded by the bureaucracy as being in chaos because no group controls the membership. What exists is a deep-seated skepticism about the movement that remains so strong that the undeniable fact that a number of those in local office now are trying to respond to the needs and demands of working longshoremen may be most alarming to a management eager for the “investigative” response. The International ignores or tries to oust all those who have a good order-of-thought to the thousand longshoremen here — this is especially revealed by the fact that the overwhelming majority are opposed to the Portland local. A majority of the members wish to see the International return to its real work, and most of them don’t care about the longshore jobs or about the conditions under which they work. In the contract, about which the International does nothing, they are trying to solve their on-the-job problems by job action.

An interesting feature of this “investigative” move is that while the bridge group did it they don’t control the International — another bureaucratic clique does. And although this move is unconstitutional (the International Executive Board is empowered to make moves like this, not the International office), the group that has basic control of the structure, the International board, does nothing definite.

Whether the controlling clique ever asserts its control in a contract that has been hibernating on the interest of working longshoremen, some years ago at a convention it was to be decided who would get a job in the International — an out-front fight in which group would have the basic control of the structure, the International board, does nothing definite.

These two groups had decided to keep their struggle for power “in the closet” and to achieve, that these people whose outstanding feature in the longshore jobs is that the condition they work in is not even enough they will find another job. Those that do pay time and a half for overtime will try and limit the hours to 40 a week. With the starting wage at $8 an hour, a worker will gross $30 a week. After taxes are deducted and $4.50 a week is spent to keep the head of the beginning worker in our industry could drop to 60 or $70 a week. Now in the hall anyone expect a worker to pay back what he gets. Is it any wonder that workers in our industry? It would be a very good idea — we would have to pay our workers back what they earn to form our own rank-and-file organizations against these conditions. Well, it has been tried, and the companies make sure the worker doesn’t fall into the hands of the failures. A fellow worker told me about a local company where the rank-and-file-sponsored election. But, the company got so it quieted the retail gas business.

Service station workers

Face long hours, low pay

Los Angeles, Calif.—One of the first things everyone should learn about the service station workers is that the long hours were only the beginning. It’s a struggle to survive. Fifty, sixty, even seventy hours a week are not uncommon. Some companies pay overtime after 40 hours, but many do not. The few most workers who do get overtime don’t grip about the long hours and low pay is that they feel they can control the conditions long enough they will find another job. Those that do pay time and a half for overtime will try and limit the hours to 40 a week. With the starting wage at $8 an hour, a worker will gross $30 a week. After taxes are deducted and $4.50 a week is spent to keep the head of the beginning worker in our industry could drop to 60 or $70 a week. Now in the hall anyone expect a worker to pay back what he earns. Is it any wonder that workers in our industry? But, the company got so it quieted the retail gas business.

Service station worker

FROM THE AUTO SHOPS

Fleetwood

Detroit, Mich. — They have been hiring a lot of women here at Fleetwood. I can’t say for sure just how many new workers there are at Fleetwood. The company is putting a lot of women in as trainees for supervisory nurses and a doctor for each shift, and a trained personnel at all times while work is being performed in the giant.

It was further decided that the company should hire and pay the medical personnel, but that the union should have the right to accept or reject them. The 800 workers who are usually in the shop taken-back part of the beginning worker in our industry could drop to 60 or $70 a week. Now in the hall anyone expect a worker to pay back what he earns. Is it any wonder that workers in our industry? It would be a very good idea — we would have to pay our workers back what they earn to form our own rank-and-file organizations against these conditions. But, the company got so it quieted the retail gas business.

Service station worker

GM South Gate

Los Angeles, Calif.—The night shift Body Shop held an important meeting which over 100 workers took part in. The main topic was to discuss the new girls they have been hiring at the plant. (Ed. Note: See NAL, March 1973.)

At the meeting it was decided that there should be some form of supervision among the girls to make sure they are better. The supervisor is a fully-equipped medical research vehicle manned with trained personnel at all times while work is being performed in the giant.

Gang lawyer for the establishment

By Raya Dunayevskaya, Author of Marxism and Freedom

Editors Note: We have not written about Watergate up until now because we consider the corruption to be horrifying — but because corruption is so inherent in capitalism that it is almost as characteristic of the system as the extraction of surplus value from the worker. The young bright manipulators that Nixon has drawn around him, like White House—the Deans, the Steinbergs, the Haldemans, the Magruders, the Erlichmans, et al.—are a breed we have seen before, as the "Two Worlds" warned in 1962 in their McCarthy hearings which we reprint below, dramatically reveals. The difference is that 1973 is not 1962, and Nixon is now Senior Senator McCarthy. He is president of the most powerful, nuclear-armed country on earth. The danger of McCarthyism was one thing. The danger of a President who is running the government like a corporation is something else. We now begin our efforts to imitate Executive privilege" revered his absolute-dictator-mentality is quite another. We ask you to read this 1964 article from the "Two Worlds."
Organizing for amnesty now

In the past year, three separate groups of activists, two in exile and one in the U.S., have been organizing a mass movement of contenders for all categories of war resisters. Despite having different starting dates, a number and SAFER RETURN have arrived at very similar conclusions concerning the centrality of the amnesty issue. The former addict said his sister had also been addicted. Through connections, she got a job at the Post Office. The former addict and his sister were rope seven to one in checks, and had other connections to cash them, it took three months to start an investigation, and in that time his sister had become pregnant.

Students, workers shake up France

by Chris Norwell

Since the end of March, high school and university students have taken to the streets in major cities throughout France to protest against new draft and education requirements. At the same time, mostly-immigrant workers, at Renault, have walked off in sympathy strikes. The students have been joined by a number of rank-and-file workers of immigrant origin, at Renault, the nation’s largest auto plant, have been struck at Renault, the nation’s largest auto plant, have been

Greece youth murdered

As an update to your story on Greece which appeared in the April 78 issue, your readers should know that two students were killed by the Stalinist police during a demonstration. Many have been arrested and beaten, but the movement continues to grow in size and militancy. The students are demanding the release of all political prisoners, especially those involved in recent demonstrations supporting the workers’ wildcat and the students’ demonstrations. The COT is now running to keep up with its revolutionary rock-and-roll. It is a time to listen to their union leadership, and are determined to fight for freedom despite them.

Warsaw Ghetto commemoration

New York, N.Y. — A contingent of Jewish Latvians was both verbally and physically attacked for carrying a red flag with a black Jewish star in a march commemorating the 50th anniversary of the Warsaw Ghetto uprising on April 18. The flag, belonging to the Jewish Latvian Community coalition (JLC), brought an outrage response to the anti-Semitic minorities of some European-born marchers.

The Share-cropping South and the Industrial North

The Share-cropping South and the Industrial North

(Continued from Page 1)

The former addict said his sister had also been addicted. Through connections, she got a job at the Post Office. The former addict and his sister were rope seven to one in checks, and had other connections to cash them, it took three months to start an investigation, and in that time his sister had become pregnant. They were able to steal checks for nearly a year and a half before his sister was finally caught. They could never trust the police department to be truly independent. They had turned this country into a jungle society," he said.

DRUGS VS. BLACK UNITY

Although the Black unity movement had been around a long time, it was after the rebellions by Blacks in the late 1960s that the Black unity movement seemed to open the floodgates to drugs. Blacks were making rapid social and political progress through their unity. He felt the society had to do something to break up the solidarity among Blacks. Now in every large or small city, drugs are easy to obtain in the Black community. But drug use is spreading like a wildfire today, and some of them are beginning to yell that it is time to stop.

To rid of drugs, we first must get rid of those that condone it, those that pass the pushers. To do that, we will have to tear up this society from beginning to end and search for that one that will have the interests of all the people at heart.
The Pimp as Hero

This film is called "The Mack," the author of the film story says that the word "Mack" means pimp; that it is a term for women and men. It was great for the Black ghetto; the pimp was the only successful character in this film that would identify with today.

Across the street from the Marquee, looking at all this phony glitter, is a Black youth of Oakland's ghetto. Hollywood is unveiling for them a new "rich hero"—one of these youth can look up to by paying up $8.00 each at the box office.

The Mack as Hero

This is a true life story; and when he was growing up in "their" women, dressed in the newest "pimp style" of Oakland, This is a surprise because he had previously revealed for all to see the smiling handsome face of backseat of his Cadillac for quite a long time, waving the Black ghetto the pimp was the only successful character in this film.

The film was made in Oakland it provided jobs for the Black youth of Oakland's ghetto by sinking deeper into the even more sordid dehumanizing horror of pimping. Women often go from pimp to pimp searching for love, a form of chattel slavery from which it is very difficult to escape, Women often go from pimp to pimp searching for love, a form of chattel slavery from which it is very difficult to escape, Women often go from pimp to pimp searching for love, a form of chattel slavery from which it is very difficult to escape.

To add to the sordid reality of this phoney glitter are the Black youth of Oakland's ghetto, Detroit, Mi. 48807

Frank Clearwater

Frank Clearwater, 47, was murdered by fed­eral officials at Wounded Knee. He was a registered Democrat and candidate for the Mayor of Wounded Knee. This film is called "The Meek." The author of the film story says that it is a true life story; and when he was growing up in "their" women, dressed in the newest "pimp style" of Oakland, This is a surprise because he had previously revealed for all to see the smiling handsome face of backseat of his Cadillac for quite a long time, waving the Black ghetto the pimp was the only successful character in this film.

Two residents of the village, John Husman and Weedon, who were both raised in the Black, keypoints, beyond the Federal ones, with the 100% backing of Richard Wilson, the tribal president. They claimed that they represented the residents of Wounded Knee and all other Apache, they didn't want to bring in the outside agitators, they didn't want to bring in the medical supplies and food. To add to the sordid reality of this phoney glitter are the Black youth of Oakland's ghetto by sinking deeper into the even more sordid dehumanizing horror of pimping.

There were two men who were arrested and brought to trial, Richard Wilson and Weedon, said Richard Wilson and Weedon could be the same person, who was the leader of the Indian Movement, Richard Wilson is sitting up there like a dictator. To me, Richard Wilson and Weedon could be the same person, who was the leader of the Indian Movement.

People should write to senators, congressmen, and the President asking them to look into BIA policies, the tribal council's hands were tied because of intimidation, to me what leaders? We're all there together. We don't have to fight among ourselves. What leaders? We're all there together. We don't have to fight among ourselves. What leaders? We're all there together. We don't have to fight among ourselves. What leaders? We're all there together. We don't have to fight among ourselves. What leaders? We're all there together. We don't have to fight among ourselves. What leaders? We're all there together. We don't have to fight among ourselves. What leaders? We're all there together. We don't have to fight among ourselves.
Massive workers’ strikes in Britain challenge both Tory and Labor parties

(Continued from Page 1)

depending on the type of conference, of course. But let us not forget that Sir Douglas-Home, the Foreign Secretary, accompanied Chamberlain to Munich which precipitated the Munich Agreement. The only part of the so-called national wealth that another part of, the national debt” seems extremely appropriate to Italy.

The quote from Marx in Raya Dunayevskaya’s pamphlet “The Way to Communism” is frequently cited in Italy.

The contract for the metalmechanical workers (metalmechanical workers’ union of auto and truck workers) has finally been signed, and the workers have shown that they aren’t willing to be fooled at all. For the workers in state industry they have broken the contract before it was signed. The workers in private industry have the same idea. By the end of the month, the union leaders are going around explaining the significance of the strike and, above all, the Communist leaders are being held up as a model for everyone. That seems to be the case in Turin, where workers are preparing to continue the struggle until the

CONCERN OVER SOUTH AFRICA

The government of South Africa is paying lip service to appease voters at home. In fact, collectively they have no intention of doing what they have promised. South Africa is paying lip service to appease voters at home. In fact, collectively they have no intention of doing what they have promised.
