Several workers called saying how happy they were about the New Hampshire defeat of Louis C. Wyman, Republican candidate for the Senate, by John Durkin, the Democrat. When asked why some workers were excited over Durkin's victory when there is a big majority of Democrats in the Senate and House, and President Ford gets away with a veto of practically anything he does not agree with, one worker said: "Yes, we know that some Democrats are more reactionary than some Republicans, but this election in New Hampshire was where Ford and Reagan went to campaign for Wyman.

"All the newscasters were saying the two were putting their prestige on the line, Reagan to get out all the right-wing voters and Ford to get out all the middle-of-the-roaders and liberal Republicans. Everywhere that Ford has gone to help out a candidate, the candidate has lost. At work we were saying that if this continues, there will be all Democrats in the Senate and House and Ford vetoes will be overruled." FORD WITH BUSINESS

Many workers say Ford is the most racist President that has ever sat in the White House in modern times, as well as the most anti-labor. The Nixon-Ford policies are with big business corporations, and big business gets more, while the poor and working people get less.

Ford has cut money from every progressive and social program that was established in the 1960's. Many have been cut out completely. He is saying that school busing won't be an issue in next year's national election, and that social program that was established in the 1960's. Many have been cut out completely. He is saying that school busing won't be an issue in next year's national election, and that integration was the law of the land. Twenty years later, this appointed President Ford never once mentions the law of the land or integration.

Never says what the "better way" is.

When President Eisenhower dispatched U.S. troops to Little Rock some 20 years ago to force integration, he stated it was because segregation was the law of the land. Twenty years later, this appointed President Ford never once mentions the law of the land or integration. A Black steelworker from Birmingham, Ala. I was talking with said if the government had taken a forceful stand or discussion on school busing today, it would be all over and forgotten, and everyone would be getting on with the business at hand.

FIGHT FOR INTEGRATION

Birmingham was the most segregated city in this country. After the big revolution there, when the Civil Rights Acts became law, a government official came into the steel mill, telling management that segregated facilities had to go, and gave the company so many days to rid itself of all segregated signs.

Everywhere in the plant there were signs, "White Only" and "Colored." There were no signs "Colored Only." The reason was that if a white used the colored facility he was not breaking a law, but if a Black worker was caught using white facilities he was breaking a law and could be fired.

Many Black workers never dreamed they would see the day this change would come, and what if it did, many white workers accepted it. But extreme racist and KKK elements yelled they would quit first before bathing with a Black or drinking from the same fountain. They were afraid of the reaction.

Los Angeles, Cal.—The welfare system is one of many institutions whose theory is to keep recipients dependent on the crumbs of capitalism.

You are guilty until proven innocent. There are some on welfare who feel that the welfare system causes "fraud" as it is impossible to live on the welfare grant. We are now being classified as the ABCs—Anarchists, Blacks and Chicanos—as if we are the only color on welfare. I refuse to use the word "race" as the system does because as far as I know there is only one race—the human race.

The system treats us like prisoners who have been let out on parole. We have to report to our parole officer every two weeks. The W-2 forms ask such questions as: what other income do you have, work expenses, child care, or in the home, is there really a hospital, quit or started school, married, became pregnant or gave birth, started or refused or quit a job; have you bought or sold anything since last report day. And if this isn't bad enough, the District Attorney's office has to get in on the act with missing fathers. Now keep in mind, while it may be illegal, I have to drive 15 miles round-trip to the bank; who moved in or out of the home, went to jail for minor traffic violations, and to pay fines. All this for no reason other than it is a means of controlling us. These are some of the things that we are facing. Too bad we can't do like our Congressmen who found out that they were being watched by the Senate cafeteria and then decided to move in the House luncheon, complained, and gave themselves a ten percent pay raise.

—Audrey Williams

Detroit, Mich.—I work as a teacher's aide and my wage is $70 a month with only one month's notice. That's my check $70 a month and raised the cost of my food past year, the Department of Social Services (DSS) cut my stamps $40 a month, with only one month's notice. That's a hamburger cost ten cents more in the Senate cafeteria.If I am accused to be a woman I am entitled to equal pay for what I do. I am now trying to help the feminists understand that there are other women besides the anti-class and antifeminist for them to identify with Black women like myself.

But I think all of us are going to have to learn to respect each other, if we are to live together without separatism. That's the only way any of us will survive.

—April Holiday

* * *

Four hundred catering workers, mostly Asian women, are striking London's Heathrow Airport demanding better working conditions and higher wages. The women prepare and clean food in ankle-deep water and unbelievable working conditions and higher wages. The women prepare and clean food in ankle-deep water and unbelievable working conditions.

At the South African Women's Freedom Day celebration commemorates the first massive demonstration by day care workers, government employees, and the elderly, all protesting cuts in human service funds.

Protesting proposed welfare cuts, 69 demonstrators disrupted the Massachusetts House of Representatives shouting, "Jobs or income now!" and "Restore the welfare system!" The demonstrators were day care workers, government employees, and the elderly, all protesting cuts in human service funds.

Since it costs me money to work, I had actually thought about quitting. But the DSS told me I could quit my job without a "good" reason or my grant would be terminated.

So I am being forced to take low-paying jobs that never keep them off welfare. The newest "plan" is that everyone on welfare in Wayne County will have to work for $1.00 an hour.

Now I haven't been on welfare for welfare, I was two months pregnant when my husband left me. I worked as long as I could and after I couldn't manage it, I went down and applied for welfare. I was ashamed and embarrassed, even though I had worked 10 years prior as a cook.

—Audrey Williams

I joined a Welfare Rights Organization (WRO) and learned that if you didn't have certain rights as a welfare recipient, things the workers knew but would never tell us. I also learned that people who are on welfare are still human beings and they're entitled to some dignity, pride, and respect.

I started making speeches and when I went to a National Organization for Women (NOW) meeting, I even found myself as a Feminist. I've been one for years but I just never knew it.

My consciousness had reached the point to think "I am wrong to be a woman. I am entitled to equal pay for what I do." I am now trying to help the feminists understand that there are other women besides the anti-class and antifeminist for them to identify with Black women like myself.

But I think all of us are going to have to learn to respect each other, if we are to live together without separatism. That's the only way any of us will survive.

IWL NOTES

by Molly Jackson

The International Women's Year conferences in Mexico this summer contained a bittersweet mixture of feminism, nationalism and superpower politics. So over-determined are these issues that even the unofficial Tribunal were the "revolutionaries" that the majority of the world's women live close to starvation, those who live in a state of "one world" solidarity with each other. A spokeswoman said, "Past history and today's life shows that the infinite power of women."

The celebration commemorates the first massive demonstration on Aug. 9, 1913 organized by women against the racist South African "pass" laws.

Nothing better sums up the actual two worlds within each country—the world of the few who control work, culture, education, even the air we breathe, and the world of the many who have little control over their own lives.

All the "Communist" countries, both Russia and China, claimed their women were already liberated and were surrounded by discussions about legal reform and women's issues. The Israeli government, however, were "as slim and attractive" as women in other countries. The best discussions were not at either conference

Philosophical differences are evident. Tribal Government . . .

I 1974 conferences, issues lacked clarity of philosophy

by Shainape Shakope

I felt as excited now about the movement for freedom among the Indians as I did when I first knew about it. I can't believe that the Oglala Lakota Nation is being treated the same way that the Oglala Lakota Nation was treated. I want to see the Oglala Lakota Nation's reservation become independent. I want my people to have the opportunity to be free and independent. I think the most important development since the occupation of Wounded Knee has been the establishment of the Oglala Lakota Nation.

Before United States Governmental interference in our internal affairs, we were able to govern ourselves. Today our traditional form of government remains strong, while the one imposed on us by your government has brought only confusion, poverty, death and destruction.

Therefore, in order to retain our national identity as a sovereign people, we see no other recourse but to follow our traditional leaders who have determined that we must return to our own way of governing ourselves. In future matters we will deal only with the Secretary of State or the President of the United States himself.

Today, in the summer of 1974, we terminate our allegiance to the federal government and take for a fact the Oglala Lakota Nation which was the legal entity established by the 1868 Treaty of Fort Laramie. Since 1868 the Federal Government has been involved in matters of concern to the Oglala Lakota Nation, including one half of the White Clay district where the shoot-out with the FBI occurred on the same day. I don't believe that anyone can attempt to explain, I think the most important development since the occupation of Wounded Knee has been the establishment of the Oglala Lakota Nation.

We, as the Oglala people of the Oglala Lakota Nation whose governing body is the Lakota Treaty Council, hereby declare to the Government of the United States that the Oglala Lakota Nation has terminated its allegiance to the federal government and that the Oglala Lakota Nation will no longer be governed by the United States Government.

Unioral cuts workers’ break time, blasts medical leaves

Detroit, Mich. — Unioral management had everyone in the plant attend a second meeting to tell us we had to do better on the scrap, and we had to build more tires. It was the same threat that the first time around, there’s a possibility of shutting the plant down.

They’re also trying to cut out medical leaves. Management said there was no such thing as a medical leave, and that if you went to see a doctor, you should be ventilated properly, the company said. She had to go to the desk to get her job back. Then they gave her a production fall that she had to work a year without being off.

They say we take too many vacations, to which they don’t do anything to prevent us from getting sick. Then it was with the fact that she had been working at the plant for months. We really suffer. And there are things that they can do to prevent us from getting sick.

When the production standards are so high and you work every day, you are bound to get sick and run down. It takes a medical to get well again. You can’t go to the office and say you need a day off because you’re moving, or you have a sick baby, or you have to take care of yourself because you just can’t explain anything to those people—especially if you’re a woman. If you’re of childbearing age, you’re going to be sick.

Before, management allowed us to take a break every hour. All of a sudden, they broke the new hour down, and no one knew what was happening, didn’t even think we were getting our production out.

But management is pushing for higher production quotas every day in the shop. The production departments, which means there’s a quality control push. The company has been using scare tactics to try to threat the workers with the political enemies. Ford with his anti-busing statements have no union representation and can’t object, and after that any worker has to do it.

The company has been using scare tactics to try to frustrate the workers. Management is trying to break up the organization of the workers. The government has never done before in modern history. More than one battle line was drawn in this strike.

The government has never done before in modern history. More than one battle line was drawn in this strike. The operators get union members may have won this fight, but they are mistaken if they think the battle is over. The rank-and-file miners have long been the shock troops of American labor, and they are showing the way that future battles will have to be fought — against the bosses, the operators, courts, police and their own union.

FROM THE AUTO STOPS

Fleetwood

Detroit, Mich. — On the night of Aug. 28, a new hire went up on the sixth floor was pushed to the point that he attacked his foreman with a rubber mallet, then ran off. Later, the new hire was shot in the back of the neck on the 6th floor. The platform was covered with a rubber bridge in front of the plant on the 1-75 freeway and killed himself. Although that incident wasushed up, we heard that that new hire was injured there.

The new hires in the plant now are being used to settle shops, all with a lot of work added on. That is one thing workers shouldn’t allow. Jobs should never be settled by workers who have no union representation and can’t object, and after that any worker has to do it. But management is pushing for higher production quotas.

Workers, 756 filed since April, are on strike. A lot more are expected to join in.

Meanwhile the committeemen say keep doing your job. They give us a lot of reasons why not to write up a fellow worker, but since the union is supposed to represent us, I think there’s no way they will do it.

One day in Dept. 11, it was not a formal, but the fourth floor alternate committeeman, who came up to the glass line officer and asked the workers why they were working in the hole.

The company has been using scare tactics to try to get everyone to work at the plant. It has threatened that if the plant gets too radical, production will be slowed down. Right before changeover, the company stated they would ship the K-jobs (for Sevilles) to New Jersey if they were not allowed to work.

Any tactic that can be used to try to get the workers to work, the company will use, and they have been doing it.

Dodge Truck

Warren, Mich. — They seem to have called back as many workers as they are getting in for now. In every section people are working, cut down on the number of workers. They have refused to answer a call committee.

It is the company that sets production, and they are adding to the line without adequate notification. By adding to the line, workers are angered about what the union is doing, because the union is supposed to represent us. Instead, it takes care of company business.

President Ford's attempts to incite the outright fascist elements in America are nowhere revealed more clearly than in the attempt to stem the Black conscious-
segregation which he insists on termsing "forced busing." Whether conspiracy or insanity is finally declared in the 
breakthrough of Kathryn’s murder, it is a fact that Dr. 
Charles Glatt, the greater truth is that the murderer took 
what he wanted the moment his argument was 
held, the black worker cannot possibly win his own strugg-
ides. The capitalists have a class sense of their own 
their own people, and well they may. The inter-
vide workers. Without understanding the Black revolt, 
the white worker cannot possibly win his own struggles. 

The reason of the Black working class 

Three weeks before the opening of school in 
Louisville, the Daily press is at a loss to explain how everything has 
without understanding the Black revolution. This 
the individual moments spent tearing 
the nullification. In fact, he's the one 
state funds. The war at home goes on, 
judicial law,/05-3. Those who walked out surely have 
out themselves. Those who walked out could be 
their own two sentences to the federal Selective Train-
the law when he was investigating something else, 
the Bill was a way to avoid the states.

introduction

when philosophy and liberation get separated

The philosophers of last generation, who were swept away in the current of the revolution of our age, could not comprehend philosophical thought and life in the world of liberation. They could see only the external, superficial aspect of the new reality. They could not understand the profound, inner meaning of the new reality.

Philosophy is the science of reality, the science of life. It is the science of the worker, the science of the oppressed, the science of freedom. It is the science of the revolutionary, the science of the thinker.

Philosophy is the science of the world, the science of the universe, the science of the cosmos. It is the science of the universe of liberation, the science of the universe of life.

Philosophy is the science of the human, the science of the individual. It is the science of the human being, the science of the individual's freedom.

Philosophy is the science of the collective, the science of the community. It is the science of the collective's freedom, the science of the community's freedom.

Philosophy is the science of the world, the science of the universe, the science of the cosmos. It is the science of the universe of liberation, the science of the universe of life.

Philosophy is the science of the human, the science of the individual. It is the science of the human being, the science of the individual's freedom.

Philosophy is the science of the collective, the science of the community. It is the science of the collective's freedom, the science of the community's freedom.

Philosophy is the science of the human, the science of the individual. It is the science of the human being, the science of the individual's freedom.

Philosophy is the science of the collective, the science of the community. It is the science of the collective's freedom, the science of the community's freedom.
Farm workers vote UFW despite heavy grower threats

Oakland, Cal. — The United Farm Workers Union (UFW) has pulled ahead in the polling of farm workers in the first California fields’ secret ballot elections held by law, despite the opposition of growers, Teamsters, growers, and sheriffs, and media.

Looking at the figures, however, doesn’t tell the whole story. In Delano, the Teamsters workers won the huge Guernuyn ranches and a few other ranches, armed thugs were riding around before the election, and the new elections wereoral instead of secret ballots. In other words, the growers did absolutely nothing to stop them. There were even armed goons at the polling places to prevent workers from voting.

At another ranch, 42 out of 67 workers had signed UFW authorization cards. One week later 45 voted for the UFW. In the other cases, the police did absolutely nothing to stop them. In the Stockton area, a right-wing group called “Posse Comitatus” has used shotguns and rifles to keep UFW organizers from entering the fields.

The union has asked the Agricultural Labor Relations Board (ALRB) not to hold elections in Delano under conditions like these. The ALRB has refused to listen, and now a state assembly committee is investigating the violence in the elections. Also, the UFW and its supporters are holding a meeting of the Agricultural Labor Relations Counsel to refuse to recognize blantly anti-UFW violence.

SOLIDARIDAD

The news media is also doing its best to distort the facts and turn public support away from the UFW.

When the Gallo election was held, the San Francisco Examiner, a Hearst paper, came out with a front-page headline saying Teamsters win at Gallo. They had the workers’ ballots had been contested and held aside, and the next week the ALRB certified most of these strikers’ ballots and threw out the secret ballots and supervisors’ ballots, giving the victory to the UFW.

But despite these overwhelming odds, the farmworkers are determined to keep the UFW in their movement. In the San Diego area the UFW is winning tomato field workers that have never been organized before, and in the Central Valley and up the coast, the UFW is picking up mushroom, artichoke, and strawberry workers, and votes from their offices.

In Salinas, despite La Migra deporting to Mexico undocumented workers who sign UFW cards, the union expects to win all but one of the 500 strawberry ranches which had been under Teamster contract.

But winning elections is not enough. Many growers have said they wouldn’t sign contracts if the UFW wins. If the union doesn’t have a contract with a ranch after one year of being certified the bargaining agent at that ranch, the union will call an election and the election starts over again.

The news media will say the boycott is over once the elections are over, but it is just the opposite. The boycott will force the growers to sign a decent contract that the workers can live with, or the boycott will continue to be a real hardship on the growers.

The UFW calls its boycott a strike, and when the union will be as well-versed on the affairs of Zaire or Tanzania as the U.S.

Hegel, Marx, Lenin, Trotsky, Sartre, Mao Tse-tung, the humanism has been refuted by Louis Althusser, Alain Badiou and others. A similar thing happens with the criticism that Dunayevskaya formulates? This is to answer the question: How can the third world be a real hardship on parents and children, when UFT President Albert Shanker announced the settlement, he said nothing about the kids.

The union got a lot of good publicity by presenting the strike as concerned with class size, but that was never the real issue for the UFT. According to one person at the negotiations, the union’s main concerns were just to change the “separate” to “intermediate” classes, and reduced work hours for people holding certain administrative positions.

Our job is with children, not with a commodity. Their leaving school at ten to have a real hardship on parents and children. When UFT President Albert Shanker announced the settlement, he said nothing about the kids.

Kaunda and Vorster mix fails

not be accepted by the liberation forces while many of their leader are subject to immediate arrest upon entering Rhodesia.

Kaunda and Vorster forced the meeting between Smith and Zimbabwe leaders by applying very direct and concrete pressure upon the most sensitive elements in the war for Zimbabwe liberation— Kaunda and Vorster was carrying out his maneuvers of operating out of Zambia, and Vorster by withdrawing from Rhodesia and the latter's statement that was sent to Rhodesia to combat guerrilla infiltration.

KAUNDA, VORSTER OPPOSITES?

In the meeting, Vorster appears to stand as diametrical opposites on all crucial issues which are plaguing the African continent. Last spring, the SA government, by telling the world that South Africa is on the brink of war and that the American policy was "giving psychological comfort to the forces of evil". Zambia, he went on to say, would like to avoid bloodshed, but if all the doors to a peaceful change are closed, then Zambia is bound to take the inescapable alternative.

Prime Minister Vorster, head of the world's largest colonial power, Kolom in the city of South Africa last May to inform the world that he would like to negotiate their rights and obligations with South Africa, but he plans to make no inroads on internal political policies. South Africa would have to accept South Africa as it is.

REVOLUTION AND COUNTER-REVOLUTION

The very first week that the contract was in effect, hundreds of thousands of students walked out of classes at several city colleges, and graduate students refused to pay their tuition. The very first week that the contract was in effect, a city-wide demonstration was called after the city department of education announced it was going to make a decision on the budget. The very first week that the contract was in effect, a city-wide demonstration was called after the city department of education announced it was going to make a decision on the budget.

We'll probably now be told that we knew what we were voting for when we accepted the agreement. As one longshoreman already expressed it, "They didn't say anything about the Pay Guarantee and if it's really in the agreement, it was in the fine print— I didn't even read it." The government class about busing. There are mostly Blacks in the class. Yet it seemed to be split right down the middle—eastside and westside.

They're up there saying, "Man, we're going to kick your brains blown out— why bother? It doesn't seem to make much sense.

'cause you're no one i want to know
and no one i want to stay
and i don't care
Think of you

World revolution, too, starts at home. Every word has gotten to mean its opposite, whether we limit ourself to something as small as the education or something as vast as "peace" or any other word, Latin America, or Africa or India. Moreover, that word of means the end of capitalism and its replacement through proletarian revolution, by socialism.

We'll probably now be told that we knew what we were voting for when we accepted the agreement. As one longshoreman already expressed it, "They didn't say anything about the Pay Guarantee and if it's really in the agreement, it was in the fine print— I didn't even read it." The government class about busing. There are mostly Blacks in the class. Yet it seemed to be split right down the middle—eastside and westside.

They're up there saying, "Man, we're going to kick your brains blown out— why bother? It doesn't seem to make much sense.

'cause you're no one i want to know
and no one i want to stay
and i don't care
Think of you

World revolution, too, starts at home. Every word has gotten to mean its opposite, whether we limit ourself to something as small as the education or something as vast as "peace" or any other word, Latin America, or Africa or India. Moreover, that word of means the end of capitalism and its replacement through proletarian revolution, by socialism.

Millions upon millions have the same desire as we for a new social order and new human relations. The violence in the streets is the expression of a crisis that has been set back in activities, manual and mental.

And because of the totality of the crisis and the nuclear threats that are hanging over the very survival of humanity, it becomes imperative not to rush away from the colletors, but to find the means to make this crisis creative, to find the means to make this crisis creative.
continued to widen" with a $3 per capita gain in the poor Mexico with an iron heel, runs around the globe in search THE PILLAGE OF A CONTINENT mains under the spurred boot. Brazil, Uruguay, Bolivia-Chile, two years after the U.S. backed military coup, re­

The British politicians are so busy trying to get their hands on that piece of paradise the vastness of Asia, they are saying very little about foreign policy. It is interest­

The military's banning of reporting any diverse opinions in the press is a new form of censorship. The free flow of ideas is most needed if its leadership is to re­

How long can U.S. "in perpetuity" imperialism last in Latin America? (Continued from Page 1)

No stranger to U.S. confrontation with Latin America as well as Asia, Bunker was ambassador to the Organiza­

The largest city in the U.S., New York City, is breathing down the throats of the manufacturers as it meets its bills. Its eight largest banks hold $10 billion in defaulted loans on which no interest is being collected. Deters of the world are in a panic as the banks hold billions in real estate loans on which they are afraid to foreclose, since there are no purchasers for the properties. Besides the real estate, the banks are also holding large amounts of U.S. government bonds for lack of purchasers.

As the federal government is used increasingly to bail out bankrupt corporations, and with credit lines to firms in Asia, who are carrying the brunt of debt, wage earners foot the bills and the standard of living is driven down.

Portugal
